

Two compressor systems based on two **Ariel reciprocating compressors** driven by a Loher 2.1 MW VSDS, for underground gas storage, Epe, Germany

First Dutch CO₂ injection module, based on an **Ariel reciprocating compressor**, 100% wet CO₂, off-shore, K12-b

22 meter long compressor train: **two centrifugal compressors** in series, two gear boxes and a 12,2 MW drive, lift gas module for enhanced oil recovery

150 ton single lift compressor skid, based on two **Ariel reciprocating compressors**, for off-shore gas depletion, K2BA

- **ConPackSys**: Engineers & Contractors
- Reciprocating and centrifugal **compressors**
- **All systems** between suction and discharge valve
- Taking **full responsibility** from start till finish
- Your reliable partner for more than **20 years**
